DETAILED ACTION

*Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-21 rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO-99/67809.

WO'809 discloses an isopreniod compound represented by a general formula in claim

3. When R2 in the formula is –CO-R3, the isopreniod compound represents an isopreniod fatty acid ester. WO'809 describes that the compound has a bone adsorption-inhibitory action in a mammal suffering from osteoporosis. See the claims, page 5, lines 27-28, page 9, lines 5-9, page 14, line 28 to page 15, line 14.

In addition, those skilled in the art can easily select an optimum dosage embodiment such as oral administration or transdermal administration when administration the isopreniod compound set out in WO'809, which has bone adsorption-inhibitory action.
